
AUSTEK - PRODUCT INFORMATION SHEET

INDUSTRIAL POWER DEGREASE (Super Concentrated Industrial Degreaser)

Industrial Power Degrease is an amber, aqueous degreaser with bacteriostatic properties, which removes oil and grease, along with the dirt that clings to it and cleans all hard surfaces. At the same time it will remove all germs and bacteria.

Industrial Power Degrease is fully biodegradable so after use it is broken down into harmless materials by normal water treatment and natural processes. It is non-toxic and non-flammable.

How to use

Method's

Industrial Power Degrease can be used manually or through a pressure washer and will be effective in hot or cold, hard or soft water.

Concentrations

Dilute the super concentrate (neat product) to 10:1 (e.g. 100ml **Industrial Power Degrease** to 1000ml water) to obtain standard strength **Industrial Power Degrease**.

Then re-dilute this solution up to 50:1 according to the degree of soiling.

Light cleaning 50:1 (i.e. 500:1)

Medium cleaning 20:1 (i.e. 200:1)

Heavy cleaning 5:1 (i.e. 50:1)

Typical applications

Industrial Power Degrease is highly versatile water based degreaser. It is extremely effective against the harshest soiling of oils greases, and any form of hydraulic fluid. Due to its versatility, **Industrial Power Degrease** has uses in many industries and for many applications. It is an excellent degreaser for use on Motors, as well as any form of Manufacturing or Heavy Industry equipment. Its powerful degreasing properties and versatility through the use of dilution rates makes **Industrial Power Degrease** an excellent Industrial Degreaser. It is used in Workshops, Garages, Factories, Storerooms and Industrial buildings.

Health & Safety

See separate "SAFETY DATA SHEET" for information.
